Luisenstraße 56, 10115 Berlin, Germany

EDUCATION

Humboldt University Berlin, Germany

2019 –

PhD in Political Science

Supervisor: Prof. Heike Klüver

London School of Economics, UK

2016 – 2017

MSc in Social and Cultural Psychology

University of Coimbra, Portugal

2012 – 2015

BA in Psychology

Exchange period at the University of Helsinki, Finland

WORKING PAPERS

Bounded rationality: Evidence from the English Green Party

Are political parties rational actors? In this paper, I test this assumption by studying how changes in voters' preferences affect the strategies of political parties. Specifically, I study the effect of extreme weather events on the electoral strategy of the English Green party. I argue these events provide Green parties with a unique electoral opportunity. Using a difference-in-differences design, I show that - contrary to the literature's expectations - the party does not capitalise on this opportunity. Further, I test to what extent that is a consequence of the party's limited resources and information. The study is relevant for a better understand of party politics and of environmental politics.

The political effects of female representation: Evidence from a regression-discontinuity design

Does the election of female politicians foster political participation among women? While it is often argued that representation can promote the participation of minorities and of women in particular, research on this has provided mixed results. In this paper, I contribute to this puzzle by using a regression-discontinuity design with close elections to test whether electing a female MP increases women's participation in local politics in the UK. I use panel surveys to explore the mechanisms driving my results. These results are particularly important for a better understanding of female and minority participation and thus have important implications.

Campaign finance laws and representation: Evidence from Citizens United (with Heike Klüver)

Do campaign donations limits affect the quality of representation? While there has been plenty of research on the effect of campaign donations on political outcomes and corruption, little is known about the effect of these on the quality of representation. In this paper, we address this gap by studying the effect of campaign donation limits on representation. Using difference-in-differences design and a novel dataset that matches state-level how legislators and their constituencies vote on the same amendments, we study effect of the Citizens United v FEC ruling on representation. Using data on campaign donations, we study the mechanisms underlying our findings. Overall, this study is important for a better understanding of the role of money in politics and of inequalities in representation.

The Electoral Consequences of New Political Actors (with Tom Arend and Fabio Ellger)

What are the consequences of new political actors? Recent research suggests that the emergence of radical right parties (RRPs) can defy long established democratic norms, with consequences for the behavior of both voters and political elites. We study whether that is part of a broader pattern by which new actors challenge the political establishment, provoke electoral backlash and increase polarization. Using a difference-in-differences design, we leverage on the differential timing of parliamentary success of the Green Party of Germany to study this question. Our findings become particularly relevant in a time of polarization and fragmentation across Western democracies.

Radical right parties and government formation (with Heike Klüver and Jae-Jae Spoon)

Do radical right parties (RRPs) delay government formation? Recent research has studied the effect of parliamentary entry of RRP on voter attitudes, polarization and party competition. Building on the literature on coalition formation, we argue that it is not sufficient to merely enter a parliament, but that RRP can only delay government formation when they have sufficient bargaining power. Using a regression discontinuity design complemented with an event history analysis, we show that the mere entry of a RRP into parliament has no effect on government formation, but that RRP can significantly delay the formation of a cabinet when they have sufficient bargaining power. Our findings are relevant for understanding the relationship between party competition, polarization and government formation.

WORK IN PROGRESS

The political consequences of nuclear energy policies (with Heike Klüver)

First analyses phase

Immigration Policy and Outgroup Hostility: Evidence from a natural experiment

Data collection phase

Relief Packages and Corruption (with Patrícia Calca)

Data collection phase

TEACHING EXPERIENCE

BA: Lecturer, *The Politics of the Environment*.

2021

BA level.

Humboldt University Berlin

Teaching Assistant for *Statistics I*, by Mark Kayser

2020

MA level. Student's evaluation: 9.2/10.

Hertie School, Berlin

PROFESSIONAL ACADEMIC EXPERIENCE

Research Assistant

2018 – 2019

Weizenbaum Institute and Free University Berlin

Research Assistant

2015 – 2016

Os Malmequeres.

Project funded by the Portuguese National Rehabilitation Institute.

Research Intern

2015

Risk Observatory, Centre of Social Studies, University of Coimbra.

ADDITIONAL TRAINING

DYNAMICS Graduate School, Humboldt University Berlin

2019 – 2021

Population Forecast, by Gunnar Andersson.

Panel Data Analysis, by Hannes Kröger.

Programming Methods for Data Retrieval & Management, by Christopher Gandrud.

Introduction to Data Science, by Simon Munzert and Will Lowe.

Essex Summer School

2020

Mathematics, by Jessica Claridge.

Causal Inference and Policy Evaluation, by Adam Zelizer.

ECPR Summer School

2020

Big Data Collection and Management in R, by Matt W. Loftis.

ECPR Winter School <i>Multilevel Regression Modelling, by Levente Littvay.</i> <i>Maths Refresher, by Susumu Shikano.</i>	2019
GSERM Winter School in Empirical Research Methods <i>Panel Data Analysis, by Christopher Zorn.</i>	2019
Weizenbaum Institute <i>Social Media Analysis with R, by Maurice Vergeer.</i>	2018
GESIS Summer School in Survey Methodology <i>Design and Implementation of Longitudinal Surveys, by Tarek Al Baghal and Alexandru Cernat</i>	2018

AWARDS AND HONOURS

• Department Research Funding, Humboldt University Berlin	2021
• University of Oxford Travel Bursary	2018
• Young Digital Changers	2018
• LSE Cumberland Lodge Bursary	2017
• <i>Erasmus</i> + scholarship	2014
• University of Coimbra <i>3% Best Students</i> scholarship	2015

CONFERENCE PRESENTATIONS

• MPSA	2021
• EPSA	2021
• APSA	2021
• Social Media & Society Conference	2019
• Internet, Policy and Politics Conference: Oxford	2018
• Participatory and Deliberative Democracy Conference: London	2018

SERVICE TO THE DISCIPLINE AND MEMBERSHIPS

- Reviewer for Journal of Politics, New Media & Society, Journal of Social and Political Psychology, Politikon
- Students representative in PhD recruiting committee for DYNAMICS Graduate School, Humboldt University & Hertie School
- Member of EPSA, APSA and MPSA

SOFTWARE SKILLS

Advanced: R, LaTeX, SPSS, NVivo, Qualtrics
Intermediate: Stata, QDA Miner
Basic: Python

LANGUAGE SKILLS

Portuguese (native), English (professional), Spanish(intermediate), German and French (basic).

OTHER ACTIVITIES

- Volunteer at a public institution for people with intellectual disabilities. 2010 – 2019
- Participant at ReproducibiliTea Berlin, Germany. 2019 – 2020
- Portuguese national judo team member. National champion in 2011 (U18, individual) and 2012 (U21, teams).
Medallist National Championships from U15 to U21, individual and team.
Medallist in international competitions and on the European U18 Circuit. 2009 – 2016
- Voter and Treasurer of the Direction Board of AAC Judo Club. 2013 – 2016
- Children's judo teacher (ages 4 to 10) at AAC and primary schools in Coimbra, Portugal. 2012 – 2015

Last update: March 2021.
